PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in Laravel, Django, Flask, React, and MySQL, specializing in backend development, REST APIs, real-time systems, and database-driven applications. Experienced in building scalable web applications, optimizing SQL queries, implementing authentication systems, and debugging production-level issues. Strong understanding of MVC architecture, WebSockets, and deployment workflows with a passion for solving scalable backend systems and real-world software challenges.

EXPERIENCE

Junior Laravel Developer — Cybooz IT Solutions Pvt. Ltd

Dec 2025 – July 2026

- Developed and maintained backend modules using Laravel and MySQL for financial and reporting systems.
- Optimized SQL queries and Eloquent relationships for financial reporting modules handling large datasets.
- Implemented role-based authentication and permission management systems.
- Resolved production-level issues related to financial calculations, attendance workflows, and database synchronization.
- Developed and customized reporting modules with PDF export and transaction-based workflows.

Artificial Intelligence Intern — Alpha Innovation Pvt. Ltd

July 2025 – Sept 2025

- Worked on AI-based application workflows and practical implementation tasks during industrial training.
- Assisted in developing and testing AI-related project components.
- Gained exposure to real-world AI development practices and collaborative project environments.

Front-End Development Intern — SquareBracket Innovation LLP

Feb 2025 – May 2025

- Developed responsive UI components using React, HTML5, CSS3, and JavaScript.
- Integrated frontend interfaces with RESTful backend APIs.
- Improved cross-browser compatibility and responsive performance.

PROJECTS

Jun 2025

SoundWave — Real-time chat with synchronized music playback

- Technologies: Django, Django Channels, WebSockets, YouTube API, Render
- Built a real-time chat platform with synchronized music playback across multiple users.
- Implemented real-time bidirectional communication using WebSockets and Django Channels.

MES CAREER Link — Alumni job referral & messaging platform

Nov 2024

- Technologies: Spring Boot (backend), React (frontend).
- Developed a full-stack alumni networking platform for job referrals and student engagement.
- Built REST APIs using Spring Boot and integrated them with React frontend components.
- Designed relational database structures for users, vacancies, and messaging systems.

SKILLS

- **Backend / Frameworks:** Laravel, Django, Flask, Spring Boot, REST APIs
- **Frontend:** React, JavaScript (ES6+), HTML5, CSS3
- **APIs & Realtime:** WebSockets, Django Channels, YouTube API
- **Databases:** MySQL, MariaDB **Tools:** Git, GitHub, Render
- **Core Concepts:** MVC Architecture, Authentication, Responsive Design, Query Optimization

EDUCATION

Master of Computer Applications (MCA)

MES AIMAT, Marampally — Mahatma Gandhi University

CGPA: 8.17 | 2025

Bachelor of Computer Applications (BCA)

The Cochin College — Mahatma Gandhi University

CGPA: 7.54 | 2023
